

1 - The Effects

Our planet is showing signs of stress:

Earthquakes

Ever since the 2004 Indonesian earthquake and Tsunami, the number of 6.0-8.0 quakes has increased dramatically.

USGS Worldwide Deadly & Destructive Earthquakes between Magnitudes 6 and 8
<http://earthquake.usgs.gov/recent/world-historical.php>

Volcanic Eruptions

Major volcanoes around the world are erupting violently. Extinct volcanoes in southern California are gassing steam. A new underwater volcano just formed off the coast of Oregon. You get the idea.

The Earth Is Opening Up

Giant cracks and sinkholes are appearing all over.

The Stars

Celestial positions that have remained constant for thousands of years are beginning to change.

The Greenland Event

The sun rose two days early in 2010 after their annual period of darkness. Why now?

Inuit Eskimo Testimony

They now have one more hour of sunlight to hunt seals each day. How is this possible?

Something has changed in our solar system.

2 - The Cause

Few things can cause the earth to shake, the plates to move, the lava to flow, the poles to drift and the axis to tilt. Research indicates that a large celestial object is near or inside our solar system and its gravitational/magnetic influence is causing these anomalies. What could *it* be?

- A brown dwarf star
- A huge, rogue planet
- A black hole
- Something unknown

History Repeats Itself

This object has passed through our solar system before and it will again. Ancient texts and our Holy Bible have many names for this cosmic "object":

- The Destroyer
- Hercolobus
- The Horrible Star
- The Red Kachina
- Nibiru
- Wormwood
- Nemesis
- Planet X
- Tyche
- Gabriel's Fist
- G1.9
- CW Leonis

Regardless of the name, its passing has been historically catastrophic to our planet. These events explain Woolly Mammoths being "flash frozen", aquatic fossils in high mountain areas, advanced cultures disappearing, entire cities found on the ocean floor, and potentially the asteroid belt between Mars and Jupiter, etc.

Ancient Symbols

Many ancient cultures have symbols of a "winged disk" like the one shown below. If the object shown on the front of this pamphlet flew past our planet, it may look like a winged sphere similar to the picture below.

It's likely that survivors of a *prior* passing might create representations of this cosmic intruder

in their art, religion, and historical writings, etc.

When Will It Be Here

We do not know. Only NASA knows for sure.

3 - They Knew

In 1983 NASA launched the first infrared space telescope (IRAS). It looked for heat signatures in the cold of space.

Last year, IRAS detected heat from an object about 50 billion miles away that is now the subject of intense speculation. U.S. News and World Report (9-10-84)

Since then, the governments of the world have spent over \$7 trillion on additional thermal imaging equipment pointing into space. This is a HUGE amount of money to study the cosmos. They are very concerned! In fact, other countries built similar telescopes due to "trust issues" with the U.S.

In 2007, the U.S. completed construction of the South Pole Telescope (SPT) in Antarctica. Antarctica is clearly the most challenging location to build and staff a facility; however it's the *best* location to track this particular object as it passes through our solar system. The SPT had to be built. The \$500 billion was of no concern to the government.

Even the Vatican has its own infrared telescope in Arizona. It's known as the VATT.

Can We See It?

Not with a regular telescope. This object does not emit light. But, if you have access to an infrared telescope, you can! Follow these steps:

1. Go to <http://www.google.com/sky>
2. Type in "leo" in the search field.
3. Click the **Infrared** button in the upper-right corner. Scroll to the right.

You should see the image from the front page of this flyer on your screen. This object is **HUGE!** For a size comparison, try searching on "jupiter". You will have to zoom in several times to see Jupiter, the largest planet in our solar system.

4 - They Are Prepared

The government has been preparing for this event for decades:

Wars of Conquest

If there is any place on the planet that will survive the cataclysm, the US must occupy that territory just in case.

The Svalbard Global Seed Vault

Located inside a frozen mountain in Norway, this facility stores 400,000 seed samples from around the world.

Underground Bunkers (*for them*)

Governments have been building massive underground facilities to provide protection from the forthcoming cataclysm. *Search at You Tube on the terms “underground bunkers”, “DUMBs” or “Deep Underground Military Bases”*

FEMA Camps (*for us*)

These detention centers have been constructed around the country using your tax dollars. They have perimeter fences to keep people in, and areas inside the facility for children to play. People will willingly take their families to these locations. *If at all possible, do not go to one of these “prison camps”; you will never leave!*

Military Movement

People are noticing military convoys and trains loaded with military equipment on remote roads and railways. *With a camera on most cell phones, videos and pictures are available, proving that this is happening.*

The Aftermath

Billions will die in the cataclysm. Billions of survivors will starve to death. Out of the ashes of the old world will rise a new world government and a new world religion.

Bible prophecies line up with this perfectly. Don't think so? Read about the opening of the *Sixth Seal* and the *Trumpet Judgments* in Revelation.

5 - The Only Way Out

To summarize, they (*the elite*) are preparing bunkers because they believe they'll survive. Their underground bunkers will eventually entomb them! No amount of prepping, hoarding, and hiding, can protect you. Give your life to Jesus Christ now! It is simple; anyone can do it. Get on your knees, say this prayer, and mean it with all your heart.

Dear Jesus,

Thank you for dying on the cross for me and paying the price for my sins. Please forgive me of my sins, even the sins I do not know that I've committed. I place my trust and faith completely in you for my salvation. Help me to live for you.

Amen

That's it. Welcome to the Kingdom of Heaven! Go and “sin no more”. Now get water baptized and tell others about our Lord Jesus Christ before time runs out!

6 – More Information

As troubling as this all sounds, there is victory in this story. By visiting the web site below, you can learn more. Find out about the *rescue mission (rapture)*, the *“locusts” from the “abyss”*, and the *“strong delusion”* (2 Thess. 2). Find out what being “saved” and “born again” is all about.
